

1 TITLE: NECTARINE TREE NAMED 'ROSE BRIGHT'

2 INVENTOR: Lowell Glen Bradford

3 ADDRESS: 12439 E. Savana Road

4 Le Grand, California 95333

5 BOTANICAL CLASSIFICATION: *Prunus persica*.

6 VARIETY DENOMINATION: 'ROSE BRIGHT'

7

8 ABSTRACT OF THE DISCLOSURE

9 The present invention relates to a nectarine tree, *Prunus persica*,
10 and more particularly to a new and distinct variety broadly characterized
11 by a large size, vigorous, hardy, self-fertile, productive and regular
12 bearing tree. The fruit matures under the ecological conditions
13 described in early June, with first picking on June 2, 2003. The fruit
14 is uniformly large in size, somewhat acidic in flavor, globose in shape,
15 clingstone in type, very firm in texture, yellow in flesh color, and
16 almost full red in skin color. The variety was developed as a second
17 generation cross using 'Red Diamond' (United States Plant Patent Number
18 3,165) yellow flesh nectarine as the selected seed grandparent and 'Rose
19 Diamond' (United States Plant Patent Number 7,421) yellow flesh nectarine
20 as the selected pollen grandparent.
